Bellingham Bell is known for producing bells of remarkable tonal quality, shape and finish. The product may be customized with raised text, logos, graphics and engravings such that each bell is a unique work of art.

Established in 1980, Bellingham Bell is renowned for producing a quality product that is unmatched by other makers. The product line includes bells in a variety of sizes up to 16 inches in diameter as well as all of the associated mounting and sounding apparatus.

**THE BELLINGHAM BELL COMPANY**

Around, around,
Companions all, take your ground,
And name the bell with joy profound!
Concordia is the world we've found
Most meet to express the harmonious sound,
That calls to those in friendship bound.

- Johann Christoph Friedrich von Schiller,
  *Song of the Bell*
Bellingham Bell Company specializes in customizations that are raised from the surface and cast integrally with the bell. Unlike other makers, Bellingham Bell Company utilizes the ancient art of lost wax investment casting—a process used by jewelers to capture exquisite details. This process dictates quite literally that once the casting is complete, the mold is broken.

Due to the capabilities of the investment casting process, customizations are limited only by your imagination. We can incorporate text, logos, or sculptured designs as well as custom fonts and color enamels. Our designers shall work with you to create a bell specifically tailored to meet your needs.

Softly the loud peal dies,
In passing winds it drowns,
But breathes, like perfect joys,
Tender tones.

-Frederick Tennyson, The Bridal
I hear the ship’s bells, 
the metal song of halyards 
ringing against the masts. 
These are moments of oceans 
deeper than skies...

- Barrett Warner.
Excerpt from the poem Galeville.
